

## CALVERT ON THE AIR

1. Operate from 10 County parks, State parks or museums within a year to receive certificate.
2. Must make 1 HF, 1 VHF, **and** 1 UHF contact from each park. Not necessarily on the same visit. Repeater contacts are allowed. Technician class must make one additional contact on either UHF or VHF in lieu of HF contact. If more than one operator visits at the same time, each has to make their own contacts.
3. Take a picture of the park or museum sign. Keep the file size small, please. More than one sign may be printed on a page.
3. Submit a log of contact date, time, frequency, callsign and location with picture of signs to Dave Hardy KB3RAN by email at [davehardy0101@aol.com](mailto:davehardy0101@aol.com) or in person at a meeting or event. This event will be run by Dave Hardy KB3RAN who will issue the certificates and stickers. Submissions must have current mailing and email address. A picture of station equipment used would be nice for publishing. All entries may have information published on our website and Facebook page. Making the submission gives CARA the right to publish the information on social media. Dave Hardy KB3RAN will be the judge for deciding whether a submission fulfills the requirements for a certificate or sticker.
4. Bonus stickers for working additional different 10 county parks, county museums and for both State Parks. Additional certificate for working ALL 24 parks and museums. Additional sticker for working 10 sites on UHF/VHF simplex.
5. Calvert County POTA starts 0001 EDT April 1, 2023 and will end at 2359 EST December 31, 2024.

6. Operator is responsible for fees associated with park entry and for operating safely and legally according to park rules.
7. This event is open to all licensed amateur operators who wish to participate. You do not have to be a CARA member to participate. Please share with neighboring hams and clubs.
8. If there is interest, there may be a Sprint to see how many sites you can work in one designated 12 hour period. Date in May 2023 to be determined.

**Parks to be included are:**

- P1 Cove Point Park, 750 Cove Point Rd., Lusby 20657

These are the parks I could find from county webpages and other  
online sources. If you know of another county or state park or  
museum that I missed, please contact me at

[davehardy0101@aol.com](mailto:davehardy0101@aol.com). The certificates and stickers are still in the design stage and should be ready by April 1, 2023.
